

Prexycy Quest: The First Cryptex Hunt Solution Guide

Haunted Tower

Some clues are provided in the description of the tower and the sign out front:

Haunted Tower Entrance: You are at the front entrance of a tower... like a **giant prism**. ... A small set of **strange looking stairs** lead up to the door of the tower, leading to the first floor.

Sign: Can you make it to the top of this ghoulish tower, haunted by the **spectral** figures of the past? It is said each spectre was tragically separated from their loved ones in this very tower. And now they spend eternity **searching for their lost mate**. Will they ever **see the light**?

Each spectre gives a phrase followed by a moan; the length of which (the number of O's) gives the length of the answer. The spectres' names are not relevant other than to help the players tell them apart.

Looking at the "strange looking stairs" shows that each flight of stairs in the tower is of a different number of steps.

The hints about prism, light, spectral should lead to the idea of colors of the rainbow. Each answer to the spectres' moans can be matched to a rainbow color to get a common phrase (Red Eye, Yellow Submarine...). These answers should be ordered by ROYGBIV and indexed against the number of stairs.
