

Prexycy Quest: The First Cryptex Hunt Solution Guide

Island puzzle (Electricity Pillar)

As you map out the island, you'll notice that it's laid out in a hex pattern with roads running between different types of terrain. There are villages and cities and other landmarks around the map. The layout and terrain are all aligned with the game *Settlers of Catan*.

The three nations correspond to the breath weapons of the dragons.

The fact that the island is deserted indicates that the game is over, and you must tally up the scores (Victory Points).

Catan scoring VP = #Villages + (2 x #Cities) + 2 for Longest Road + 2 for Largest Army

Nation	Dragon Color	Villages	Cities	Armor	Longest Road	Largest Army	Score
Fire	Red	6	0	0			6
Frost	White	4	2	0	2		10
Thunder	Blue	5	0	3		2	7

Having tallied up the scores and aligned them to their colors, you use the scores to extract letters from the poem found in the pyramid.

Nation	Color	Poem	Points	Letter
Frost	White	Intellectuals lose as they	10	U
Thunder	Blue	Battle night and day.	7	N
Fire	Red	States proclaim their war.	6	S
Frost	White	Communities decay.	10	E
Thunder	Blue	Purpose of such folly?	7	E
Fire	Red	Who can really say?	6	N

Solution: UNSEEN
