

To solve the L1 for this puzzle you must first figure out what each emoji is representing and then turn those words into the title of a movie. Once solved use the letters inside the brackets in order to get the answer: RERUN

To Access the L2 of this puzzle you must first find the “Magic Door” in the L1 by clicking on the low Memory warning on the bottom right of the text messages.

Once you have found the L2, the top text tells you you must pair 2 emojis to make each of the movie titles this time. Again decipher what each emoji is and then pair it with another emoji to make a movie title. The Glitches that happen will show the player the order in which to place the first emoji in each title. Once you have the Movie titles in the correct order, you will use the last text and part of the glitch for the final portion of the solve. Its says "I'll count on you to still solve it" indicating that the player must count the number of letters in each movie title to get a number, this number will then be converted to a letter giving you the answer - OFFER - The glitch also gives a hint by flashing the words "Count" and "Letters" in red text.

Order of the Glitches:
 Yellow Submarine 15 - O
 Popeye 6 - F
 Batman 6 - F
 Rambo 5 - E
 Monsters University 18 - R
