

Test your babysitting skills in this realistic scenario - Part 1

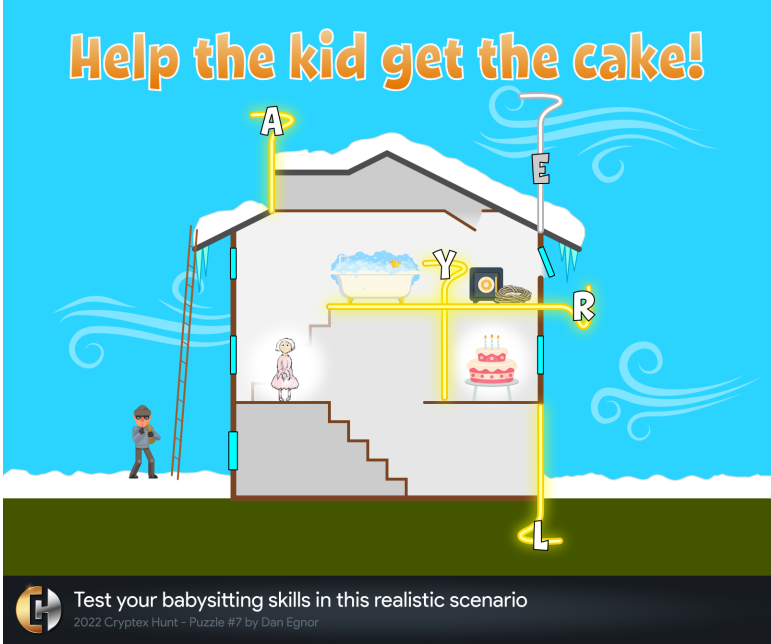

Puzzle 07

To solve the first part of this puzzle, you need to find the order to pull the pins that lets the kid get the cake without (serious) mishap.

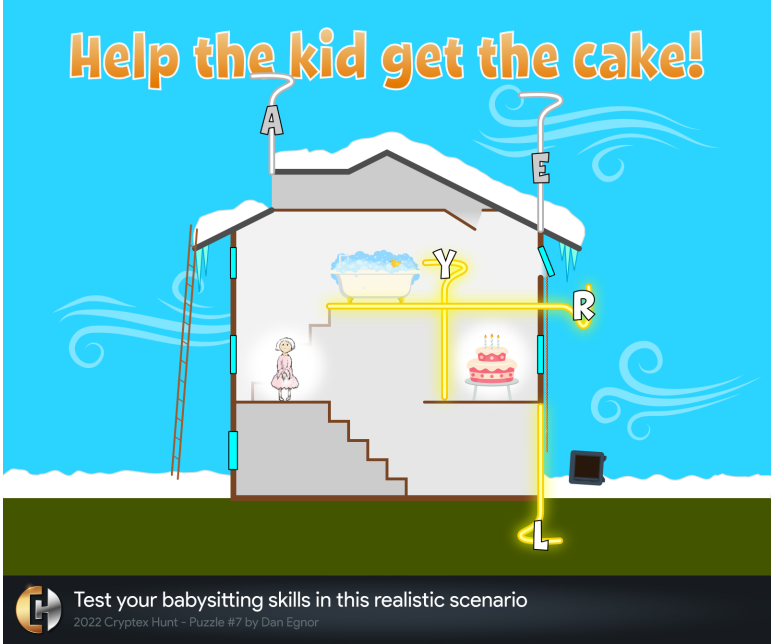

Begin with the starting configuration (reload if needed):

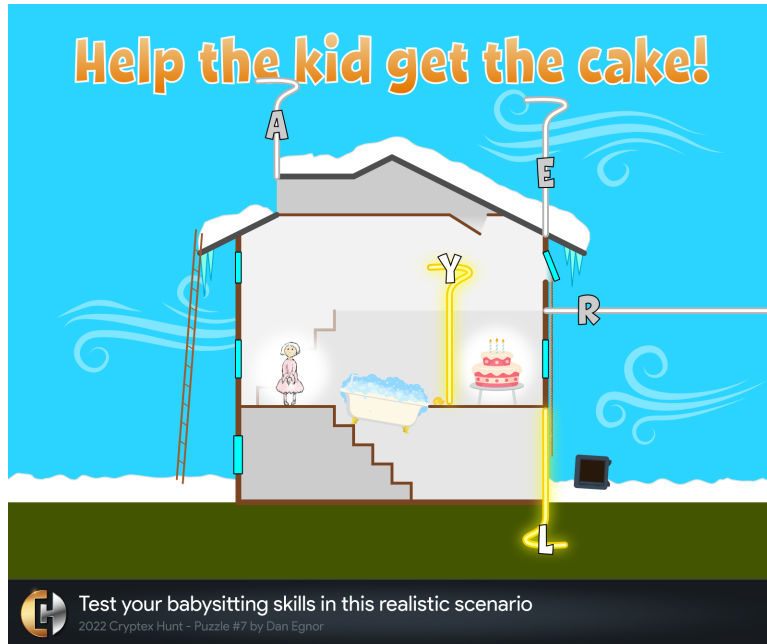

First, open the roof so the robber can exit through the window rather than coming down the stairs where the kid is - PIN E

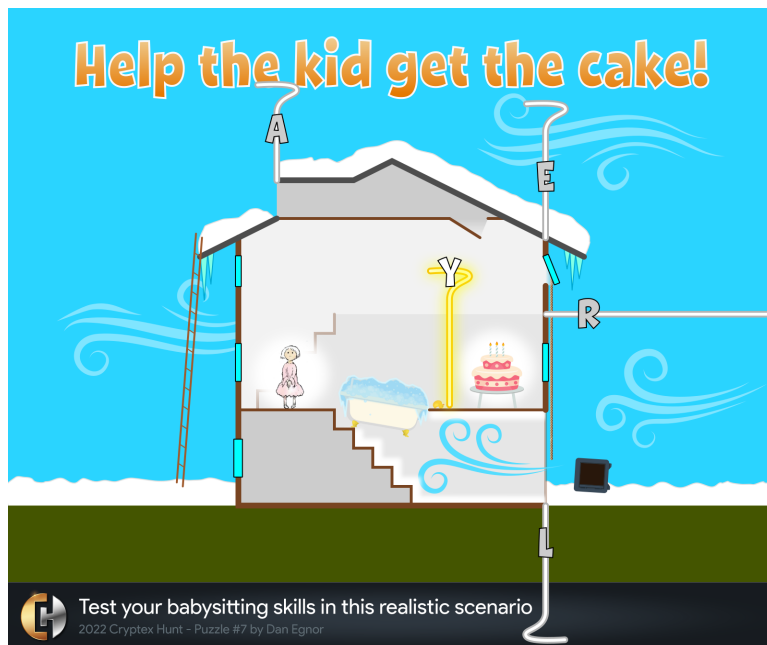

Second, let the robber in to take the safe, so it doesn't crush the cake - PIN A

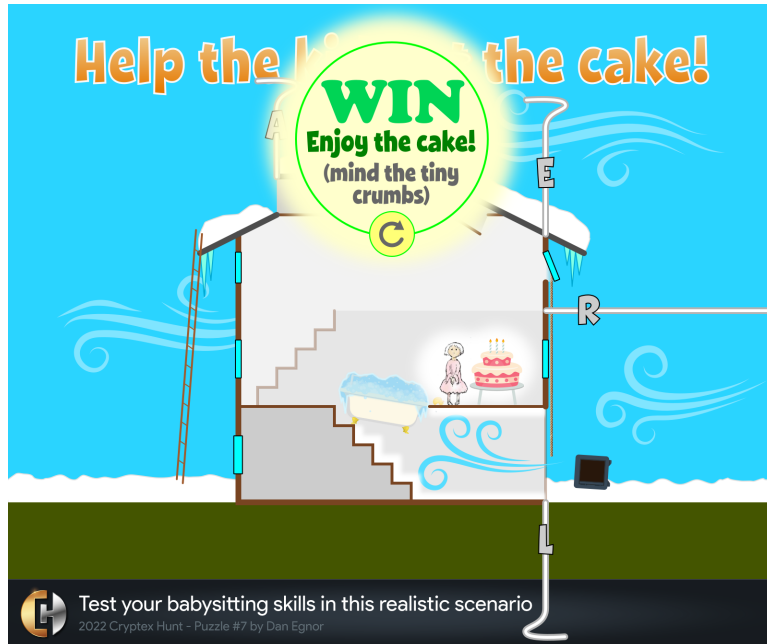

Third, drop the upper floor so the bathtub bridges the stairs - PIN R

Fourth, open the front door to freeze the bathtub so the kid can cross - PIN L

Fifth (and last), lift the wall so the kid gets the cake - PIN Y

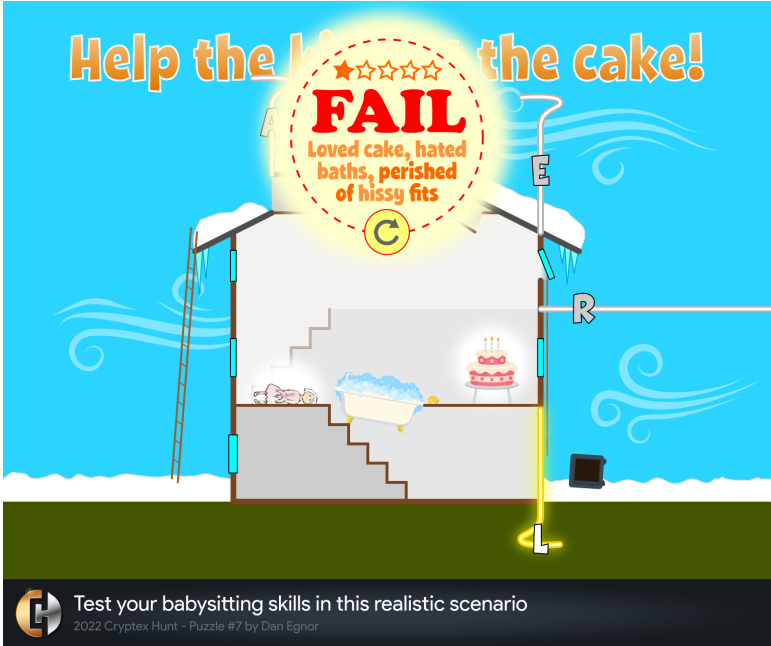

The winning sequence of pins is E, A, R, L, Y, spelling the solution EARLY.

Test your babysitting skills in this realistic scenario - Part 2

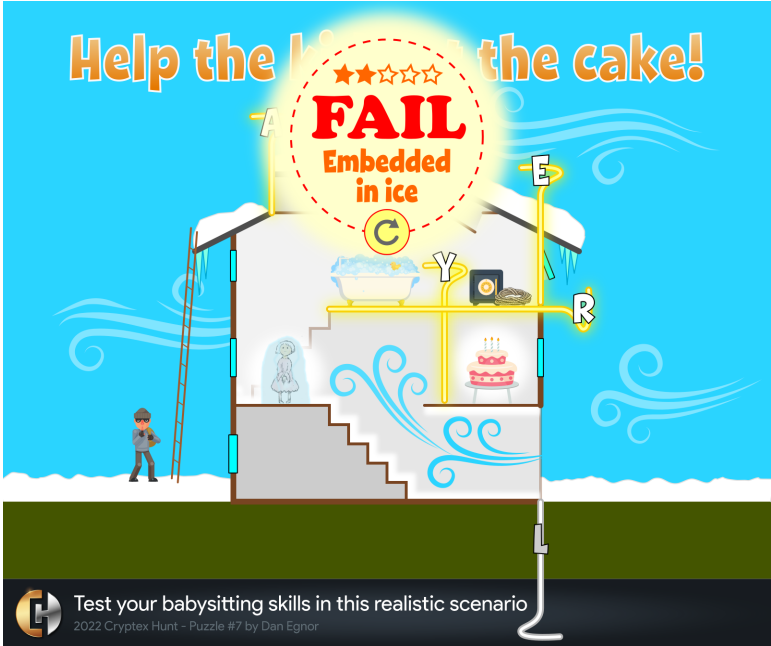

Puzzle 07

For the second part, you must find all five ways to fail the game. They're marked with a star count from 1-star to 5-star, which puts them in order.

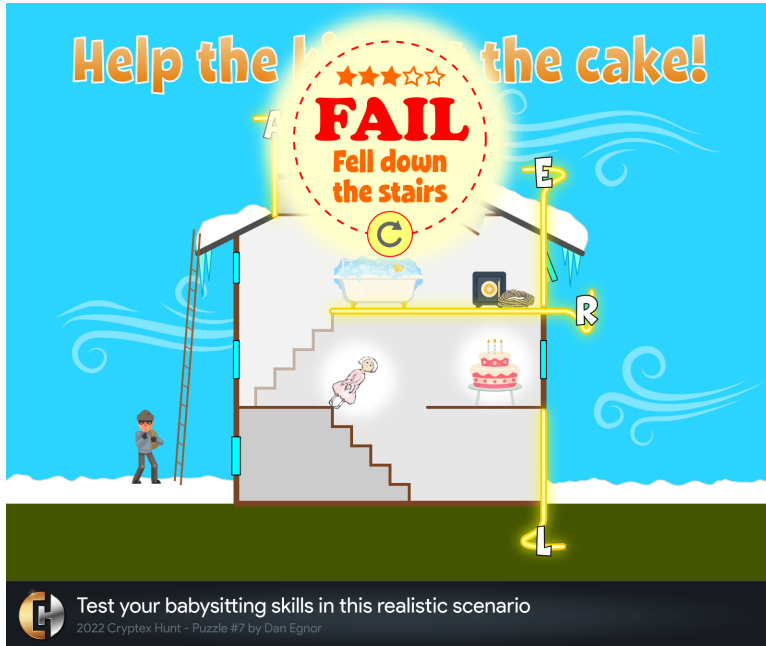

1-star (the hardest): Lift the wall with the bathtub down but not frozen (pins EARLY)

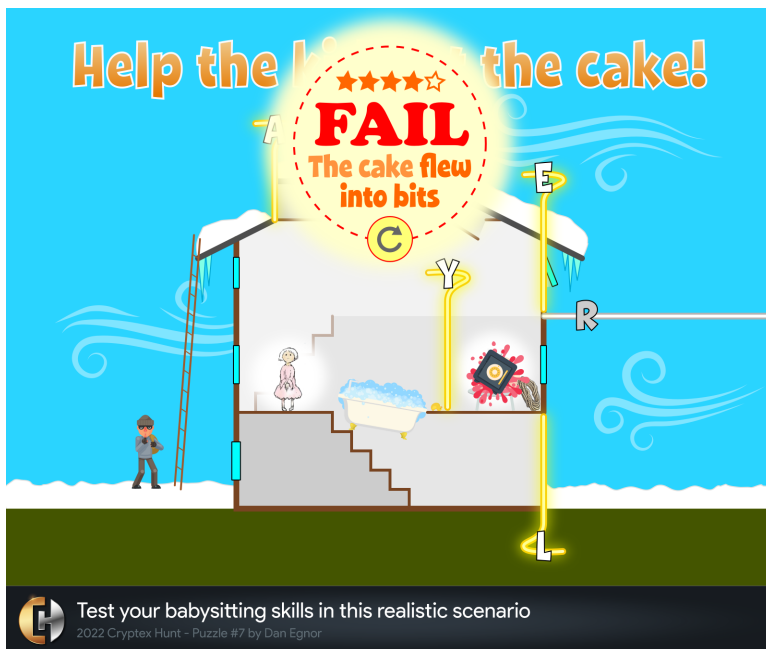

2-star: Open the front door without the bathtub down (pin L)

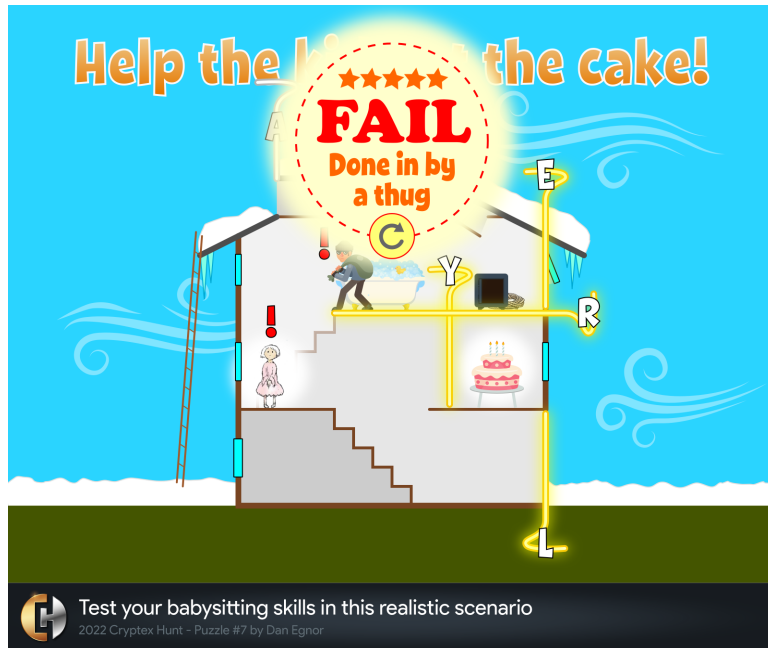

3-star: Lift the wall without the bathtub down (pin Y)

4-star: Drop the safe before it's stolen (pin R)

5-star: Let the robber in without the window open (pin A)

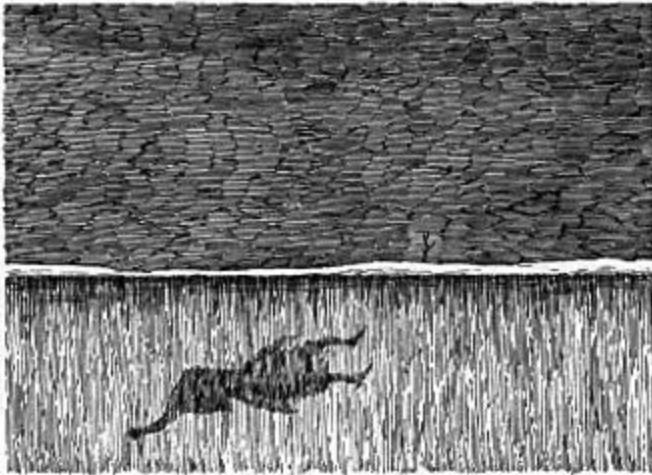

Then, you must discover that the unusual descriptions, website domain, website icon, and drawing of the kid are all referencing [The Gashlycrumb Tinies](#), a macabre alphabet book by Edward Gorey in which one child for each letter of the alphabet meets their demise in a different way.

Each failure state is referencing one entry from the book. Ordering the references from 1-star to 5-star:

S is for **SUSAN** who perished of fits

Cryptex Hunt 2022 Solution Guide

W is for **WINNIE** embedded in ice

A is for **AMY** who fell down the stairs

Cryptex Hunt 2022 Solution Guide

T is for **TITUS** who flew into bits

H is for **HECTOR** done in by a thug

In star order, these Gashlycrumb Tinies references spell the solution **SWATH**.
