Cryptex Hunt 2022
Wordle Puzzle Solution

Part 1: Complete the Wordle puzzle in the center of the graphic. Green indicates a correct letter that is in the correct location. Yellow indicates a correct letter in an incorrect location. Gray indicates a letter that is not in the final solution. Based on these rules, the logical answer is: SMALL.

Part 2: Zoom in on the border to see that there is a code hidden in the pixels, starting from the star in the top left corner and circling clockwise around the graphic. In the text, BRAINF**K is the only word written in a pixel font and indicates the name of the programming language that makes up the code. Using dcode.fr or by typing the string of code into Google, you can translate the phrase: WHERE HOBBITS LIVE. Thus the solution is: SHIRE.
